Skills

- SQL (MySQL, PostgreSQL, SQL Server)
- Python (Pandas, NumPy, SciPy, Matplotlib)
- Tableau (Data Visualization, Calculated Fields)
- AWS (Amazon Web Services)
- R Programming Language (dplyr, shinny, ggplot)
- Power BI: DAX, API, Power Query
- Excel (VLookup, Conditional Formatting, Pivot Table)
- Microsoft Azure

Projects

LONDON BIKE SHARING DATA ANALYSIS – Personal Project — December 2025 - January 2026

- Cleaned and analyzed bike-sharing data using **Python (Pandas)** and **EDA** to identify trends in ridership and seasonality
- Built an interactive **Tableau** dashboard with **time-series analysis** and **dynamic filters** to visualize demand patterns
- Evaluated weather impact on ridership using **data visualization**, uncovering key **demand drivers**

BANK LOAN PORTFOLIO ANALYSIS – Personal Project — January 2026 - February 2026

- Queried loan data using **SQL Server** to calculate **financial KPIs** such as DTI, funded amounts, and repayment metrics
- Built **Power BI** dashboards using **data modelling** and **DAX** to analyze lending trends and metrics
- Analyzed **good vs bad loans** to identify patterns in credit risk and borrower behaviour

U.S. ELECTRIC VEHICLE MARKET SHARE ANALYSIS – Personal Project — October 2025 - October 2025

- Cleaned and processed vehicle data using **Excel** and **MySQL** to perform **market share** and **adoption analysis**
- Calculated **EV penetration rates** and compared fuel types using **SQL-based metrics**
- Created a **Tableau** dashboard to visualize **geographic trends** and **adoption patterns** in the US

CUSTOMER BEHAVIOUR ANALYSIS – Personal Project — February 2026 - February 2026

- Cleaned and analyzed customer data using **Python (Pandas)** and performed **EDA** to identify customer behaviour patterns
- Wrote **SQL queries (PostgreSQL)** to evaluate **customer segmentation, revenue trends, and product performance**
- Developed a **Power BI** dashboard to present **KPIs** and purchasing trends for decision-making

Education

BACHELOR OF COMMERCE (HONOURS) – Business Technology Management — September 2024 - Present

Ted Rogers School of Management, Toronto Metropolitan University

- TRSM SQL, Excel, Python, Tableau, Power BI Bootcamp Certified

Experience

SEAR CONVENIENCE - MERCHANDISER — June 2023 - October 2025

- Managed inventory and ensured accurate product placement, improving operational efficiency
- Handled transactions and developed strong time management and organizational skills in a fast-paced environment
- Strengthened communication and problem-solving skills through customer interaction

PROTON LEARNING CENTER – Tutor Assistant — July 2021 - September 2022

- Assisted in grading and evaluating over 100+ student assignments
- Organized academic records and maintained structured documentation systems
- Supported tutors in analyzing student performance across math and English subjects
- Developed strong attention to detail and analytical thinking skills
